

USG 7461XTS

RELATIVE MATURITY 4.6

STRENGTHS

- Frogeye and SDS resistance
- STS®/Roundup Ready 2 Xtend® stack
- Beat AG46X6
- Great eye appeal

PRODUCERS

RENWOOD FARMS, INC.
17303 SANDY POINT ROAD
CHARLES CITY, VA 23030
804-829-2450

AGRONOMIC TRAITS

Pubescence	Light Tawny
Flower	Purple
Hilum	Black
POD	Brown
Growth Type	Semi-Bushy
Growth Habit	Indeterminate
Height	Medium-Tall

USG Seed is also available through
many local Ag Retailers and Farm Supply Stores

DISEASE CHARACTERISTICS

FIELD RATINGS

Salt	INC	Average Seeds/Lb.	3000
Emergence	Great	Standability	Great

Bayer CropScience is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotechnology across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. IT IS A VIOLATION OF FEDERAL AND STATE LAW TO use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend soybeans. Roundup Ready 2 Xtend soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your seed dealer or refer to the Technology Use Guide for recommended weed control programs.

Accesol®, Roundup Ready 2 Xtend®, Roundup Ready 2 Yield®, Roundup Ready FLEX®, Roundup®, Roundup Ready®, SR and Design®, VaporGrip®, XtendFlex® and XtendMax® are trademarks of Bayer CropScience. The stylized 'S' and the 'X' are trademarks of BASF Corporation.

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

Seed containing a patented trait can only be used to plant a single commercial crop. It is unlawful to save and replant Roundup Ready 2 Yield® soybeans, Roundup Ready 2 Xtend® soybeans, and XtendFlex® soybeans. Additional information and limitations on the use of these products are provided in the Technology Stewardship Agreement and the Bayer Technology Use Guide: <https://usgseed.com>. U.S. patents for Bayer technologies can be found at the following website: <http://www.uscropscience.com>

This variety contains a trait providing enhanced tolerance to labeled specific sulfonylurea soybean herbicides. The STS® gene will not safeguard this variety against other herbicide chemistries which are labeled to be used only over the top of crops that have a different and specified herbicide resistant gene. Always read and follow herbicide directions prior to use. Not all herbicides are registered for sale or use in all states or counties in the United States or all provinces in Canada. Contact your local regulatory agency to determine if a product is registered for sale or use in your area. Always read and follow label directions. ACCIDENTAL APPLICATION OF INCOMPATIBLE HERBICIDES TO THIS VARIETY COULD RESULT IN TOTAL CROP LOSS. YOU MUST SIGN A TECHNOLOGY USE AGREEMENT AND READ THE PRODUCT USE GUIDE PRIOR TO PLANTING. The purchase of these seeds includes a limited license to produce a single soybean crop in the United States (or other applicable country). The use of seed from such a crop or the progeny thereof for propagation or seed multiplication or for production or development of a hybrid or different variety of seed is strictly prohibited. Resale or transfer of the seed is strictly prohibited.

No dicamba may be used in-crop with seed with Roundup Ready® Xtend Technology, unless and until approved or specifically permitted, and no dicamba formulations are currently registered for such use in the 2025 season. Please follow www.usgseed.com/pages/xtendmax-updates.aspx for status updates. Dicamba may harm crops that are not tolerant to dicamba.
